As always we've been quite busy. We managed to shift out lots of kit before our customer's year-end. We're currently looking to tie up all our ongoing supplies and work before our year end (end of June). We've had an extraordinary number of laptops being sold in recent weeks. prices are very competitive.

We also exhibited at the Meet Coulsdon Business show at the start of June. Local business showcased their services to about 400 visitors - also local businesses. A laptop that we supplied was awarded as a door prize and won by Finishers Fleet based in Caterham.
